

Parent Education Evenings

Math Night: How can I best support my student's math development? Wednesdays, November 9, 7 PM in the Campus Life Center (CLC)

In this interactive presentation, parents will gain resources to help empower their daughter's math development, including tackling those tough math homework problems, how to approach a less than satisfactory math assessment, and finding the relevance of abstract math.

DUI Court: Parent Night Thursday, November 17, 7 PM in the Campus Life Center (CLC)

Moving an actual DUI sentencing away from a county courthouse to a local high school is a two-prong approach of educating teenagers about the legal consequences of drinking and driving as well as the roles and decisions of judicial branch of the government. In this presentation, The DUI Court process will be explained to parents by local law enforcement with the option of Q & A. Come dialogue with the Program Director for the California Office of Traffic Safety and a Superior Court Judge.

Change Ahead: Helping your daughter navigate her transition to college Thursday, April 6, 7 PM in the Campus Life Center (CLC)

For most young people, college represents independence, exploration, and growth. In this presentation, parents will be provided with skills to help their daughter navigate their academic, social and personal expectations as they transition to college and adulthood.
