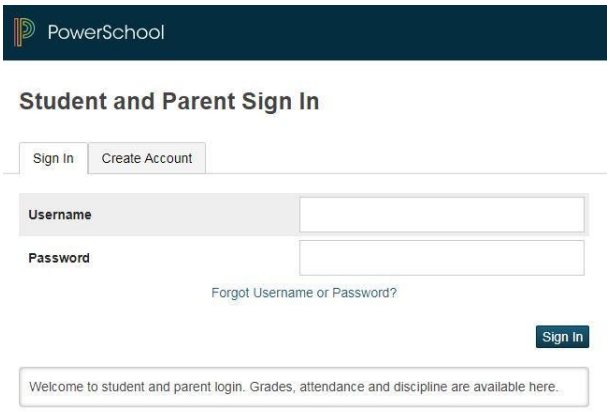
# PARENT LOGINS & PORTALS

**All parents will receive an email in late July with instructions on how to access three important resources:**



## PowerSchool Parent/Student Portal

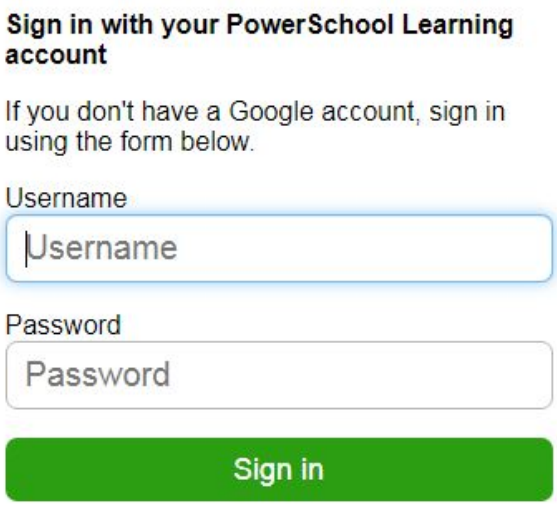
**https://stfrancishs.powerschool.com/public**

The PowerSchool Parent/Student Portal gives parents and students access to real-time information that may include attendance, term grades, unofficial transcripts, class schedules, course registration, and MySchoolBucks (their Dining Hall account). Parents and students can access the PowerSchool Parent/Student Portal through a web browser, on their smartphone, and by downloading the PowerSchool app (District Code WMJT).

## PowerSchool Learning

**https://mysfhs.stfrancishs.org**

PowerSchool Learning (PS Learning) is a learning management system. Through PS Learning, teachers post assignments, resources, and grades. Students and parents may log into PS Learning to view this content. Students may also use PS Learning to submit assignments to the teacher, participate in classroom discussions, and take assessments online.



## Final Forms

**https://stfrancishs-ca.finalforms.com**

St. Francis partners with FinalForms, an online forms and data management service. FinalForms allows you to complete/update your student's contact information, health and medical history, and emergency medical authorization. It is also used by Athletics for all students participating in St. Francis sports.
