### Did You Know?

- You need 50 hours of supervised driving experience with an adult to obtain a California driver's license.
- It takes only 6 hours of supervised behind the wheel experience with a certified driving instructor to get a California driver's license. Yet, a manicurist must complete 400 hours under supervision to be licensed in the state of California!
- Teen drivers are at the highest risk. The crash rate (per mile driven) for 16 year olds is four times that of adult drivers.
- Having passengers is a serious distraction for teen drivers. Carrying 3 or more passengers increases the risk of a crash for 16 and 17 year olds three-fold compared to driving alone.
