South Asian Troubies Club

This club's primary goal would be to assure that no voice is left unheard and hurt. Additionally, this club would function as a safe place where South Asian Troubies will be able to nurture and understand more about their rich culture and heritage. Due to the strong divide and tension in South Asia, we feel that this club will be a safe space for students of color to express their concerns and voice their opinions on the issues that our community faces, both racially and culturally.

- Join us for in-depth discussions about our ethnicity and the role it plays in our lives!
- Learn more about South Asian culture!
