

Wipe a Chromebook - Remove all SFHS restrictions and reset to factory default

1. Press ESC +  + POWER. The screen displays a yellow exclamation point (!).
2. Press CTRL + D to begin dev mode, then ENTER. The screen displays a red exclamation point.
3. Press CTRL + D, then ENTER. The Chromebook deletes its local data, returning to its initial state. The deletion takes approximately 15 minutes.
4. When the transaction completes, press the spacebar, then press ENTER to return to verified mode.

All account information and data stored on the Chrome device that isn't saved to Google drive, such as photos, downloaded files, and saved networks, is deleted during a wipe.
